

In 2012, Serge Christen released his first EP „Half the Story“ as SirJoe. This name was given to him by friends at the Musician’s Institute in Los Angeles, CA because they couldn’t pronounce “Serge” or “Sergio” the right way and ended up as the Americanized version “Sörtschou”.

What hasn’t been told in the EP “Half the Story” SirJoe completes with the debut album, “Treasures in a Box. The songs that oscillate between soft pop appeal, impetuous kitchen folk, gospel, and light-footed Americana. His folk- singer/songwriter solo project leaves space for melodic sounds, but also earthybluesy roots that characterize his live concerts.

On the following, on Vinyl released single, “Make it Shine”, a very special guest was featured. It was a duet with William White, one of the most renowned singer/songwriters in Switzerland.

In collaboration with the makers and creators of “Cyclope” he ventured into a musical excursion from the poetic and acrobatic dream world of the artist Jean Tinguely. The elaborately spectacular music video for the single “At the Prom”, proved a successful start that was celebrated on Joiz TV.

This hodgepodge of singles, related videos, and many live shows in Switzerland, France and the United States reflects that SirJoe often likes to be inspired and stopped by things crossing his path. For him, there is no reason not to devote himself extensively to these things.

Playing also in his Rock Band Modern Day Heroes, Serge decided to take a break from touring with his acoustic Project. Instead he released a new Album with MDH. Now SIRJOE will be back on stage in February 2019. Excited to grab his beloved guitar and blues harp and joining Tom and Marty on their acoustic Swiss tour. Cousin Leonard is: „timeless,..evoking the feel of the open road, with the ocean beckoning...it’s a sound difficult not to like .“ [Tourdates](#) [Biographie](#)
